

JOHN ERIC MALONOSAN

AI Systems Developer | AI-Assisted Workflow Automation | Business Systems Builder

Manila, Philippines | +63 918 376 6824 | jemalonosan@gmail.com | linkedin.com/in/johnericmalonosan | Full-time | US and Australian Time Zones

PROFESSIONAL SUMMARY

AI Systems Developer and business systems builder with 13+ years of experience across IT support, logistics operations, inventory systems, dashboards, process documentation, and workflow improvement. Experienced in building practical internal tools that turn manual business processes into structured systems, including inventory tracking, shipment monitoring, accounts receivable dashboards, KPI reporting, and operational documentation.

Hands-on experience using AI-assisted development tools such as Claude, Codex, DeepSeek, Kimi, Mimo, ChatGPT, and GLM 5.2 to support workflow mapping, system planning, code refinement, debugging, documentation, UI improvement, and process iteration. Currently focused on AI Systems Developer, AI Systems Builder, AI Workflow Automation, and AI Operations Tooling roles.

CORE COMPETENCIES

- AI-Assisted Systems Development | Workflow Automation | Business Systems Development | Internal Tools and Dashboards
- Process Mapping and Documentation | AI-Supported SOP Creation | Data Cleaning and Reporting Workflows | KPI Dashboards
- Inventory Tracking Systems | Shipment Tracking Systems | Accounts Receivable Dashboards | API Integration
- HTML | CSS | JavaScript | PHP | Laravel | Python | Advanced Excel | Google Sheets | User Testing | ISO 9001:2015 Documentation

AI-ASSISTED BUILT SYSTEMS

Freight Shipment Tracking Tool | Built with DeepSeek and Claude

- Built an AI-assisted shipment tracking workflow to organize shipment status, ETA updates, exception notes, BOL/POD visibility, operational remarks, and follow-up monitoring, using DeepSeek and Claude to support workflow planning, feature structuring, logic refinement, and documentation while reducing scattered shipment updates and improving daily operational visibility.

Inventory Management PWA | Built with Claude and Codex

- Built an inventory tracking system for daily stock monitoring, reports, audit logs, KPI visibility, and offline-first PWA structure, using Claude and Codex to support development, debugging, code cleanup, UI refinement, workflow logic, and feature improvements while supporting 1,000+ SKUs, reducing fulfillment delays by 30%, and cutting manual reporting workload by 25%.

Accounts Receivable Dashboard | Built with Kimi 2.7, Mimo 2.5, and Claude

- Built a receivables dashboard for aging review, customer balances, payment status, and reporting visibility, using Kimi 2.7, Mimo 2.5, and Claude to support dashboard structure, UI flow, data organization, and presentation logic while reducing manual review effort and making receivables easier to monitor for decision-making.

PROFESSIONAL EXPERIENCE

AI-Assisted Systems Developer / Logistics Systems Developer

Sikat Araw Trading Corp | December 2025 - May 2026 | Manila, Philippines

- Built a real-time inventory tracking system for 1,000+ SKUs using HTML, JavaScript, API integrations, internal dashboards, and AI-assisted development tools, improving operational visibility, reducing fulfillment delays by 30%, and supporting structured inventory, shipment, warehouse, and KPI monitoring across daily operations.
- Integrated third-party shipping APIs and 3PL carrier connections to support transportation tracking, automated freight audit workflows, and exception monitoring across 500+ daily transactions, cutting shipment delay detection from 48 hours to under 4 hours and reducing manual reporting workload by 25% through structured dashboards.

IT Team Leader - Systems, Documentation, and Operations Support

Ray A. Gapuz Review System | January 2023 - November 2025 | Manila, Philippines

- Led an 8-member IT support team across 3 locations, maintaining 99.9% system uptime while creating SOPs, technical documentation, incident response workflows, KPI dashboards, and ISO 9001:2015-compliant quality records, reducing issue resolution time by 20% and supporting 50+ end users across daily operations.

Logistics and Technical Support Coordinator

Tri-Asia Electrical Supply | September 2018 - January 2023 | Manila, Philippines

- Supported logistics, warehouse, and vendor coordination workflows by maintaining shipment records, delivery updates, POD/BOL documentation, customer tracking references, and OTIF follow-through, while coordinating with 3PL providers and resolving hardware/software issues for 25+ users with an average response time under 2 hours.

Inventory and Systems Analyst

Scan Marine Inc. | April 2011 - February 2016 | Manila, Philippines

- Maintained 99% inventory accuracy across 2,500+ marine parts SKUs through cycle counts, ERP validation, import shipment tracking, customs coordination, BOL/freight invoice audits, carrier dispute review, data validation protocols, and structured reporting references, reducing data entry errors by 40% and recovering 2% in overcharged freight costs.

KEY ACHIEVEMENTS

- Built real-time inventory and operations dashboards supporting 1,000+ SKUs and operational workflows across 500+ daily transactions.
- Reduced shipment delay detection from 48 hours to under 4 hours and reduced fulfillment delays by 30% through inventory visibility and proactive monitoring.

- Reduced manual reporting workload by 25%, maintained 99% inventory accuracy across 2,500+ SKUs, and reduced data entry errors by 40% through ERP validation protocols.
- Sustained 99.9% system uptime across 3 sites with an 8-member IT support team and achieved zero non-conformities across two ISO 9001:2015 external audits.

TECHNICAL SKILLS

AI Tools: Claude, Codex, DeepSeek, Kimi, MIMO, ChatGPT, GLM 5.2

Programming and Web: HTML, CSS, JavaScript, PHP, Laravel, Python, API Integration

Dashboards and Data: Advanced Excel, Pivot Tables, VLOOKUP, Macros, Google Sheets, KPI Dashboards

Business Systems: Inventory Systems, Shipment Tracking, Accounts Receivable Dashboards, SOPs, Process Mapping, Workflow Documentation

IT Support and Platforms: Help Desk, Remote Desktop, Hardware/Software Support, Odoo Inventory, Zoom, Microsoft Teams, Slack, Hubstaff, Clockify

CERTIFICATIONS

- AI Engineer Core Track: LLM Engineering, RAG, QLoRA, and Agents - Udemy, 2026
- ISO 9001:2015 Quality Management Systems - BSI Group, 2025
- Complete Data Science, Machine Learning, Deep Learning and NLP Bootcamp - Udemy, 2024
- The Data Science Course: Complete Data Science Bootcamp - Udemy, 2024
- Freight & Logistics Masterclass: Advanced Operations - Udemy, 2026
- Freight VA Intensive Training: Freight Brokerage Fundamentals - Freight Courses 101, 2026

EDUCATION

Bachelor of Science in Information Technology | Aklan State University | Aklan, Philippines | 2009 - 2011

REMOTE WORK READINESS

Internet: 200 Mbps fiber + 5G backup hotspot | Equipment: Laptop, noise-cancelling microphone, HD webcam, 27-inch monitor | Power: UPS with 2-3 hour runtime + building generator | Workspace: Quiet home office | Typing Speed: 65+ WPM | Languages: English C1, Filipino Native
